EDI Managed Services

What EDI Services Strategic Can Provide

SIG EDI
*Single Map
Translation*

What is SIG EDI?

SIG EDI, is a *Single Map Translation Tool that becomes part of your QAD eCommerce program set.*

It reduces the risk of potential *failure points* and lowers the *cost* and *complexity* of EDI operations by *eliminating* the need for third party *translation software and services.*

Powerful EDI has long been essential to your business.

With SIG EDI, using our *Single Map Translation*, it can also be practically *effortless.*
